SUMMARY

First-year Computer Science student who builds as he learns. Hands-on with HTML, CSS, C and Python, with several app and game projects started and one client app delivered. Believes consistency beats natural talent, and is looking to learn from and build alongside other makers in a collaborative tech community.

EDUCATION

B.Tech, Computer Science & Engineering (1st Year) 2026 – Present

Ramdeobaba University (RBU), Nagpur

PROJECTS

Client Business & PDF App (Custom client project)

- Customized an app for a client to support PDF handling and day-to-day business use, working from the client's requirements.

Food Safety App (In progress)

- Designing and building an app around food safety, practising app structure, UI flow and feature planning.

Game Projects (2 games, in progress)

- Started two games to learn logic, user interaction and iterating on ideas.

SKILLS

Web: HTML, CSS
Programming: C, Python (learning)
Tools: GitHub, AI tools for coding, debugging, research and content
Soft skills: Consistency, quick learning, communication, teamwork

INTERESTS & GOALS

- Web development, 3D modelling and graphics; building ideas into real products.
- Entrepreneurship and learning across domains by collaborating with peers.
